### MATH DEPARTMENT

MR RICHARD BRYFOGLE Atgebro I

The advantages of a "Contemporary Mathematics" program is that the WHY of mathematics is stressed as well as the HOW. The "why" is of utmost importance because knowing 'why" enables the student to study mathematics independently throughout life. In our civilization the areas of knowledge are constantly expanding and this expansion brings with it new problems which require mathematical solutions perhaps even involving mathematics which is not known today. For this reason, the teachers of the Mathematics Department strive not only to teach the math of today, but how to study mathematics so that their students will be able to learn whatever new mathematics will be required of them in the future

### PHYSICAL EDUCATION

Lenape's Physical Education Department, composed of an energetic and competent staff, provides for a curriculum compatible with the President's Physical Fitness Program

throughout the year a strenuous course is presented with emphasis on good sportsmanship in both the boy's and grel's sports. For the upperclassmen, stress is placed upon individual sports such as tennis, archery, and gymnastics, while the underclassman participates in and becomes familiar with the major team sports

Dear Friends from Language

It's an exciting year I have spent here, learning so much from you about American life and ideas. Most of the differ three I found come from our educational systems. In my Lycee in Tarsscon of Southern France I had to take twelve subjects and an exam every three months which determined promotion. It's not, as here, the center of social life; all the clubs I belonged to (tennis, riding, skiing, dance, and movies) were not part of my school. At home we have a big old house surrounded by vineyards, my father is a wine producer. Here I live in Ramblewood with the Robert Reeds, Lynda is my American sister. If the way of living may seem different because of all the modern advantages and facilities you possess, I found affection and a wonderful family life which made me feel at home since the beginning.

Before leaving, we'll have an A.F.S. trip in some states of the U.S.A. and I will learn more about your country. But all of the real experiences I take with me back to France will be from Lenape and my home here. And it's for this marvelous year that I want to thank all of you'

Isobella tougel

### **EXCHANGING IDEAS WITH**

### ISABELLE AND MANUEL

Life at school was an important part of the whole American Field Service program for me. Here at Lenape is where I have made more friends and where I have met more young people than anywhere else during this year. Through Lenape and through my family (the Robert Paynters) I have come to know a little but important part of America and its way of life. I hope you will have learned something of Spain from me.

School here is not like it is in Barcelona. There we have more subjects, no electives, and a large number of students in each class. The relationship between teacherand students is not so friendly as it is here. We do not have so many activities or serious sports practice either

I have learned to know and like Lenape, from the most difficult test to the funniest pep rally! And I thank you Lenape; teachers, students, and administration, all of you, because you have really made me feel at home here I shall never forget this year with you!

Manuel Kis

### SOUTHERN SPLENDOR

The efforts of many seriors were necessary to make our promia success but a few of the class of 5° deserve special recognition. Coll harmen Beryl Inch and Velma Bethel did an excellent job. The decorations were out standing due largely to the efforts of Pat Dunlap and Shirley Long and also to the many seniors who often stayed after school twisting tossue into flowers!

### **JUNIORS**

(LASS OFFICERS Jake We has biorger Prescent, Doug Billa, Vice President, Suzi Kepler, Corresponding Secretary, Mrs. Auto Gurgiel, Advisor, Patty Alvini, Recording Secretary, Mr. Richard Bryfogle, Advisor, Not pictured. Janet Mastrangelo, Tressurer

This year proved to be a busy one for the Juniors. They worked hard on their class project which was selling peanut butter cups and assorted chocolates. The money they earned belped for the expenses of the Junior-Senior Prom, "An Evening in Paris". Sue Schreiber was promichairman and Karen Courtney was no chairman. Committee efforts succeeded in producing one of the best proms. The Junior Play this year was "A Doll's House" by Ibsen.

The Talent Show turned out to be a big success with Janet Mastrangelo's modeen dance routine placing first, Cindy Gaudio's outstanding performance at the piano placed second, and singing Rose McMenimen, a first last year, as third

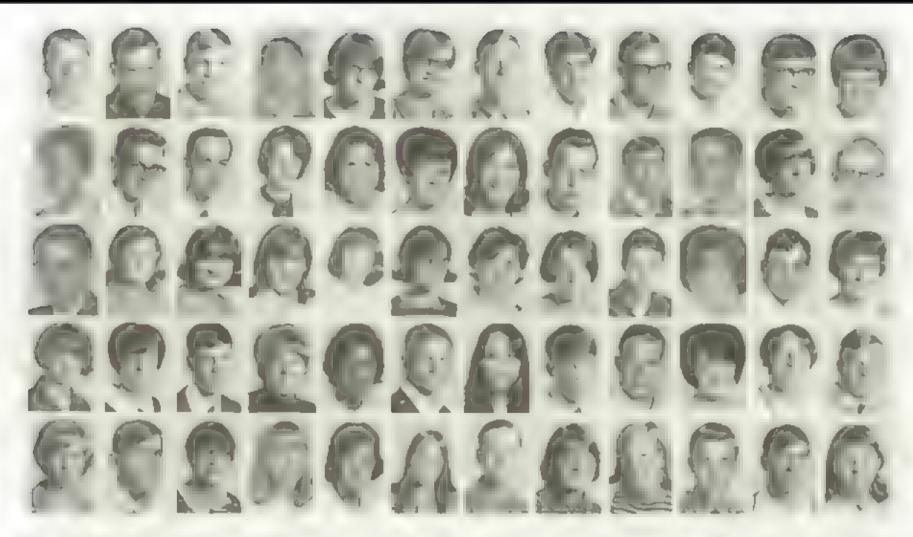

The long awaited rings finally arrived and excitement chimased with the traditional "Turn my ring!"

# SOPHOMORES

CLASS OFFICERS Corresponding Secretary Barbara Blair, Recording Secretary Pat Stell, Advisor Mr. Ferry, President John Dver Treasurer Joselyn Layman, Vice President Mary Kay Gillen, and Advisor Wrs. Ferry

The Sophomore Class Project for this year was a candy sale and through hard work it was quite profitable. The talent show fived up to expectations and participation increased. Sophomore boys have excelled in sports and are highly promising as a group. The class continued Lenape traditions in these efforts but was also an innovator, the Sophomore Newsletter being a pournalistic and popular success, and the roller skating party was a fun lifted activity. The class served the school in various ways most notably by improving the appearence of one of the school's outer courts. The Sophomore Class should provide many school leaders in their senior year.

The biggest freshman class ever to enter LENAPE showed great potential this year. Its 710 members worked hard at their class project, which was selling candy. Their Talent Show went over very well as did all other endeavors. Many went out for sports, giving hope to future years

This class produced the first Christmas Shindig. A band played as fresh man cheerleaders danced as "go-go girls. All spectators danced and sang it was a joy for all

The freshman class is looking forward to the years to come at LENAPF

The Student Council is the students' voice in the government of Lenape. Besides working closely with the administration, the Council, General Assembly and Executive Committee, serve both school and community. The Gobbler's Ball and Winter Wonderland semi-formal dance were both highly successful. Council members act as receptionists to greet parents and visitors and perform various necessory services throughout the school. The Student Council welcomes the new students. Welcome Back Dance, and keeps the graduate in touch with Lenape activities and classmates (Alumni Buffet).

Helping to support the American Field Service Exchange Students, this year Manuel Mir from Spain and Isabelle Pouget from France, the Council serves both school and community. The students and friends of Lenape also participate in the Christmas canned food drive and "Bundle Week." These efforts wires coordinated by advisors Mr Joseph Kulick and Miss Laura Lewis

#### THE LEGEND LETTER

The Legend staff strives each year to make its vearbook "just a little bit better."

In attempting to capture all aspects of student life we have altered the face of our book Individual underclassmen pictures have been included, the book has been enlarged, and candids have been utilized wherever possible.

The last deadline has now been met and the book is off to the presses. It is with mixed emotions but best wishes that we delegate our responsibilities to the staff of '61'

## TEAM WORK

On the football field or basketball court, teamwork is the key to spaces. The talent and ability of individuals may vary but with out that vital ingredient—the ability to cooperate and work together—individual abilities are meaningless.

Teamwork is also vital in any industrial enterprise. The Rohm and Haas team is made up of more than 12,000 men and women.

At the Bristol Plant some 3 000 people produce hundreds of different chemicals—enzymes for the textile—food—and tanning trades, emulsions for paints, floor polishes, textiles, and paper coatings. Plenglas acrylic plastic sheet and molding powder, insecticides, mitteides, . . . the list would fill a book.

To do this a variety of skills are required. Chemists, engineers, chemical operators, accountants, typists, stenographers, pipe fitters, mechanics, instrument men. — there are few skills who have not represented on the Rohm and Haas team.

We hope you will consider us when your education is completed. We have a number of positions for team players

But Felkman dribbles around here as his teammates wast for his move. The Indian team will the fire
